### Notes:

1. These figures are consistent with the Local Authority population estimates for mid-2022 published on 23 November 2023.
2. The ward estimates are published as 'Official Statistics in Development' which do not yet have accredited official statistics status.
3. Whilst the estimates are produced down to unit level, it is not implied that the estimates are accurate to this level of detail. ONS policy is to publish population estimates rounded to at least the nearest hundred persons.
4. These estimates reflect the ward boundaries which changed following the latest Local Democracy and Boundary Commission for Wales review and Local Government Elections on 5 May 2022. In Swansea, there are now 32 wards instead of 36.
5. These estimates are based on aggregations of whole Output Area (OA) estimates. OA boundaries are not an exact fit (non-coterminous) for ward boundaries and therefore are allocated by ONS using a best-fit approach.
